

OpenStage WL3 VoWLAN Handset Family

Instant conversations in any environment

Flexibility, security and convenience for your onsite mobile workers.

Sophisticated and feature rich, the OpenStage WL3 is the best priced VoWLAN device in its class.

If you're looking for a powerful, beautifully engineered mobile handset with the kind of connectivity that delivers an instant onsite response, your search is over!

Packed with everything you'd expect from a deskphone, the OpenStage WL3 family of mobile handsets combines superior voice quality, sophisticated functionality and a delightfully simple interface. They're the best-priced devices in their class.

All handsets come equipped with a colored, backlit graphical display for ease of use under sub-optimal conditions.

And the robust build and host of messaging and advanced alerting options makes the OpenStage WL3 ideal for a huge range of markets - from healthcare and security to retail, logistics and manufacturing.

Operating in IEEE 802.11b/g and in IEEE 802.11 a/b/g/n environments, your connected devices enjoy maximum data transfer rates every time.

And with flexible connectivity key, all VoWLAN OpenStage WL3 devices can be deployed with 802.11-compatible access points in many network environments.

SIP-compliant, all OpenStage WL3 devices are compatible with our complete OpenStage portfolio as well as third party platforms.

And because calls run over the same WLAN environments used by your corporate data applications, you can save on infrastructure costs - and enjoy the benefits of converged voice and data applications.

Robust, intuitive, low cost and connected

Everything you need to stay in touch onsite or across campus.

Whatever you need

Available in three configurations, with optional personal alarm features and messaging capabilities, OpenStage WL3 delivers a rich WLAN solution that enhances communication for staff on the move.

OpenStage WL3

Our standard VoWLAN telephony device is packed with features, including 14 ringer signals, automatic call acceptance and illuminated graphical display with 65k colors.

OpenStage WL3 + Messaging

Want to extend your communications capabilities with advanced messaging? Then this is the handset for you.

OpenStage WL3 Plus

Ideal for the most demanding of security, safety and healthcare environments, OpenStage WL3 Plus delivers VoWLAN telephony adds messaging and advanced alarming - for no movement, man down and push button alarms.

Optional extras

And users can customize their handsets with a wide range of accessories, including:

- Carrying case
- Swivel-type and fix clip
- Security cord
- Desktop chargers with country specific PSUs
- Desktop programmer with USB cable for the Portable Device Manager
- Charging racks for phones and batteries, each with 6 slots
- Additional battery packs
- Wireless Service Gateway server mounting options
- Different headset options
