1. Press and hold the desired programmable key until a popup appears.
2. Select "Assign telephony function" and press **OK**.
3. Select "Change feature" and press **OK**.
4. Select "Feature function" and press **→**.
5. Select desired function and press **OK**.
6. In some cases: enter additional parameters and press **OK**.

Save a Phone Number to a Key

1. Press and hold the desired programmable key until a popup appears.
2. Select "Assign telephony function" and press **OK**.
3. Select "Change feature?" and press **OK**.
4. Select "Destinations" and press **OK**.
5. Select "Redial key" and press **OK**.
6. Enter the desired station number and save entry.
7. Select "Key label" and press **OK**.
8. Enter the desired key label.

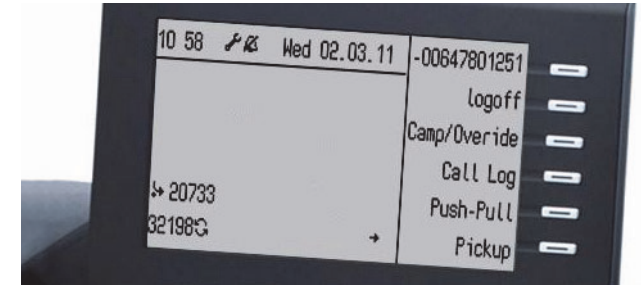

Dialing a Number from the internal Phonebook

The internal directory contains all station numbers and system speed-dial numbers assigned to a name. Contact your administrator to find out if one was configured for your system.

1. Press **[<|>]** and select "Phonebook".
2. Press **[+]** or **[-]** to scroll to next or previous entry. Or enter the name you want to find, or just the first few letters, using the alphanumeric keypad.
3. Press **OK** to dial.

Further helpful features of your OpenStage Phone

Your OpenStage provides much more helpful features. See below a small selection with short descriptions. Detailed information please find in the respective operating instructions.

Mobility (HFA only)

You can move your phone user interface with most of its functions and properties (phone number, key assignment, authorization, phonebook) to another phone. The "Home User" is deactivated and you may use this phone as "Mobile User" (Mobile HFA) until you log off. Phone connections are transferred network-wide.

Retrieving Voicemail Messages

Depending on your communication platform and its configuration, you can use this application to access received callbacks and messages from OpenScape Xpressions. If your system is appropriately configured, you can call the voice mailbox directly and immediately play back the stored messages.

Leave an Advisory Message

You can leave an advisory messages on the internal caller's phone display which wish to contact you during your absence. Select a message of the set of predefined messages or define your own one. You reach the function by pressing **→** key.

Send a Message

You can send short text messages to individual phones or groups of phones. Select a message of the set of predefined messages or define your own one. You reach the function by pressing **→** key.
